Novelties

Stükerjürgen

Plastic solutions for poultry farming

FS-DOUBLE CYLINDER DRINKER "CLEAN"

The name speaks for itself: FS double cylinder drinker "Clean" - the cleanest double cylinder drinker on the market comes from Stükerjürgen!

Our new 3-litre drinker convinces with an attractive design, the proven Stükerjürgen quality and a closure technology developed and protected by us that makes cleaning even easier. Try it out! Available in red/white, capacity 3 litres.

- Innovative closure technology - thus super easy cleaning
- Easy to fill without having to turn it upside down

AUTOMATIC FEEDER WITH HINGED LID

Stükerjürgen has developed something new to make life easier for you: our new automatic feeder with protected hinged lid function!

No turning over necessary during filling - therefore no feed loss during filling: Filling also possible when suspended. The feed grill is included and the whole machine is easy to clean. Available in green/white, filling quantity 4 kg.

Innovative, simple filling from above

hinged lid

Organic drinkers and accessories

FS-GREEN-LINE

Proven, stable FS drinkers and automatic feeders made of organic plastic, based on renewable raw materials, easy to clean.

Automatic feeders with proven bayonet lock, two-coloured, with clamp-on grill.

Reversible and double-cylinder troughs with proven bayonet lock, also suitable for hanging, available with feet.

This is only an excerpt from our range. Please ask for our catalogue.

Accessories

FEEDING PLATE FOR CHICKS

Suitable for rearing day-old chicks.

DRINKING CUP / FEEDING BOWL

The ideal containers for liquids or granular feed, suitable for exhibition cages.

BASE

For 1 litre and 1.5 litres. Drinkers and 1 kg automatic feeders, available in other colours:

POULTRY NEST

Less susceptible to mites than wood nests and easier to clean.

Poultry Drinkers

FS-POULTRY DRINKERS

with proven bayonet lock for poultry in floor housing, sturdy design, easy to clean

Reversible drinker: conical hood prevents the animals from sitting on it, thus less water pollution, some available with feet.

Double-cylinder drinkers: easy to fill, as no turning over is necessary, suitable for hanging up, available with feet.

Other colours:

FS-QUAIL DRINKERS

with proven bayonet lock, also suitable for bird breeding, low and narrow rim, easy to clean

FS-HANGING DRINKERS

for low pressure systems

T 320 The ideal device for chicken breeding, fattened cocks, layers and turkeys.

TN 380 hanging drinkers with 8 nipples + cups for chicks and chickens. The animals always get clean water through the nipples.

FLOATING TANK

Accessories for all hanging drinkers, filling quantity approx. 7 litres

Automatic Feeders

FS-AUTOMATIC FEEDERS

with proven bayonet lock

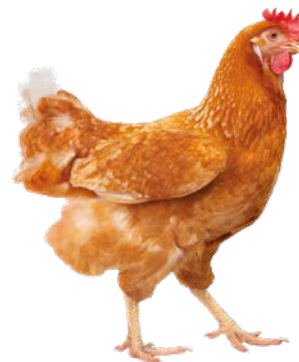

For quails, aviary poultry, dwarf chicks and chickens, two-coloured with clip-on grill, easy handling. 1 kg automatic feeder, available in other colours.

AUTOMATIC FEEDERS

with lid and grill, sturdy design

Can also be used with automatic feeding systems, infinitely variable feed height adjustment possible, partly also suitable for hanging up and with feet.

Poultry Troughs

FS-FEEDING TROUGH

for animals of all ages, alternatively with feeding grid or rotating roller

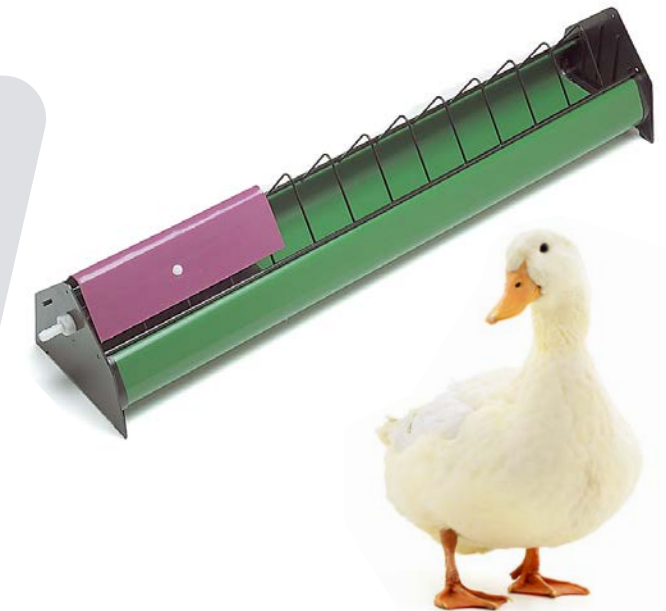

Different trough widths allow optimal adaptation to the respective animal species or age.

DUCK DRINKER

with float valve

For direct connection to the water pipe. The high-quality protective grid prevents it from being used as a bathtub.

i Further troughs such as goose troughs, small animal troughs etc. can be found in our catalogue.
